

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
Program Description:				
<b>Education</b>				
Beyea, Suzanne	HRSA	Nurse Education, Practice and Retention: Internship and Residency Programs	07/04 - 06/07	\$182,630
...		To improve retention of nurses in rural Northern New England through enhanced nursing education and practice		
Eubank, Daniel	HRSA	Faculty Development in Primary Care	07/03 - 06/06	\$146,867
...		To establish a new community-based faculty development program designed to enhance core competencies in clinical care and teaching among community-based preceptors, especially those in rural/undeserved areas		
Orgren, Rosemary Zubkoff, Michael	HRSA	Model State-Supported AHEC Program	09/04 - 08/07	\$173,086
...		To promote ongoing improvement of the quality and accessibility of health care services for underserved and vulnerable populations in the State		
Pipas, Catherine	HRSA	Predoctoral Training in Primary Care	07/03 - 06/06	\$134,706
...		To establish a comprehensive center of excellence in primary care medical education		
Schifferdecker, Karen	NLM	Creating Practice Systems to Deliver Online Resources	12/03 - 11/06	\$142,022
...		To develop self-sustaining practice-based systems that will improve access to and delivery of online health information to patients and health care providers in rural and underserved regions in New Hampshire		
Weinstein, James	NIH/NIAMS	Orthopedic Resident Clinician/Researcher Program (NRSA)	05/03 - 04/08	\$149,759
...		To support the training of orthopedic clinician/researchers who will be able to assume leadership positions to initial health care improvement.		
Wennberg, John	AHCPR	Pre-Post Doctoral Training in Evaluative Clinical Sciences (with CECS)	09/94 - 06/08	\$271,864
...		A graduate training program providing a rigorous preparation in the disciplines and methods needed to carry out outcomes and effectiveness of health care research		
Zubkoff, Michael	HRSA	Academic Administrative Units in Primary Care	09/04 - 08/07	\$262,315
...		To develop clinical faculty competent in the improvement of primary care and medical student, resident, and fellowship teaching in primary care. This initiative will focus on the learning and teaching of leadership theory, change management, and evaluation of clinical systems.		
<b>Subtotal for Education:</b>			<b>\$1,463,249</b>	

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
<b>Evaluative Clinical Sciences</b> (joint with the CECS, Medicine & Pediatrics)				
Batalden, Paul	VA	Development of a VA National Quality Scholars Program	07/98 - 06/05	\$286,369
...		To develop and implement a national scholars program for VA fellows		
Bott, David	Endowment for Health	New Hampshire Access to Primary Care Indicator Project	10/02 - 12/04	\$78,660
...		The major goal of this project is to collaboratively develop and analyze a series of economic, socio-cultural and geographic indicators for access barriers to primary care services within Primary Care Service Areas		
Bott, David	Endowment for Health	New Hampshire Nursing Workforce Web-Based Survey	12/03 - 11/04	\$7,978
...		The major goals of this project are to develop and implement, in collaboration with the NH Nursing Board, a web-based survey of the NH nursing workforce, to analyze the responses, to disseminate the results and to develop a sustainability plan to continue the longitudinal collection of this data utilizing this survey.		
Bynum, Julie	Pfizer	Cognitive Impairment in the Elderly	07/04 - 06/06	\$65,000
...		The major goal of this project is to develop claims-based methodologies that will identify a well-defined national cohort of cognitively impaired or dementia patients. These cohorts will be used for subsequent studies of health outcomes.		
Fisher, Elliott	State of VT	Vermont Data Analysis Project	07/00 - 03/06	\$14,815
...		The major goals of this project are the construction and analysis of the Medicare Claims Data Bases and related analyses of claims data		
Fisher, Elliott	VA	VA Outcomes/NY CABG Contract	07/02 - 06/05	\$111,469
...		The major goals of this contract are to provide recruiter and mentor services for the VA Outcomes Group fellows and to provide co-investigator services for work examining the rate of CABG utilization in NY veterans.		
Fisher, Elliott	RWJF	Dartmouth Atlas Disparities Database	08/04 - 07/07	\$194,221
...		To expand on current Dartmouth Atlas Project by making available national and local data on racial disparities in the utilization and outcomes of health care services. In addition, the project will carry out policy-relevant analyses of racial disparities in health care		
Fisher, Elliott	VA	Rural Health Initiative	09/04 - 09/06	\$35,247
...		To provide research, technical and consultant support services for rural health care		

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
Program Description:				
Flood, Ann Barry	Rockefeller Ctr.	Addressing Ethnic and Gender Disparities in Knee Arthroplasty	07/04 - 06/05	\$7,000
...		The major goal of this project is to examine the sources of any gender- and ethnic-related differences in preferences for treatment options for osteoarthritis of the knees.		
Goodman, David	HRSA	Primary Care Service Area Enhancements and Studies	10/99 - 09/07	\$370,886
...		To develop and evaluate primary care service areas for the nation based upon Medicare physician utilization.		
Goodman, David	HRSA	Development of Travel Time Data	09/04 - 11/04	\$18,481
...		To determine the travel distance and population areas associated with the hospitals identified affecting or bordering frontier areas		
Goodman, David	CDC/AAMC	Impact of Family Planning Services Availability	10/02 - 09/05	\$138,254
...		To determine whether the risk of teen births and unintended births is associated with (1) the geographic availability of family planning services; (2) structural factors that encourage utilization; and (3) cultural concordance between patients and service providers.		
Jenkins, Pamela	Doris Duke Fnd	Health Outcomes in Hypoplastic Left Heart Syndrome	07/00 - 06/05	\$100,000
...		The major goals of this project are to better understand which pre-operative and operative characteristics are predictors of one-year and long-term survival, to assess the functional outcomes of children with HLHS and to compare transplantation and staged surgery in terms of functional outcomes		
Jenkins, Pamela	AHRQ	Health Outcomes in Hypoplastic Left Heart Syndrome	09/00 - 08/05	\$121,750
...		The major goals of this project are to better understand which pre-operative and operative characteristics are predictors of one-year and long-term survival, to assess the functional outcomes of children with HLHS and to compare transplantation and staged surgery in terms of functional outcomes		
Llewellyn-Thomas/ Weinstein	FIMDM	Developing and Evaluating Shared Decision Making Programs	01/98 - 06/05	\$612,571
...		The major goal of this project is the development and evaluation of data useful for shared decision programs to assist patients in making medical decisions		
O'Connor, Gerald	CF Fdn.	Measuring, Organizing & Improving Cystic Fibrosis Care & Outcomes	01/99 - 12/04	\$218,133
...		The major goal of this project is to form a regional organization that will improve care by studying outcomes and processes of care		
O'Connor, Gerald	CF Fdn.	CFF Patient Registry and Development of a National Program	07/01 - 06/05	\$141,894
...		The major goals of this project are to analyze CFF patient registry data; to generate a national report, as well as center and affiliate reports; and to develop a national program designed to accelerate the improvement of clinical care in CF.		

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
		Program Description:		
O'Connor, Gerald	CF Fdn.	Development of a National Program of Quality Improvement in CF	07/04 - 06/05	\$244,392
...		The major goal is to develop a national program designed to accelerate the improvement of clinical care in CF		
Regan-Smith, Martha	Hitchcock Fdn.	Learning and Teaching about Patient Self-Care	07/03 - 06/05	\$24,494
...		To learn and develop new ways to improve the care of patients by improving the self-education teaching skills of physicians and the self-care education of patients.		
Schwartz, Lisa	RWJF	Simple Tools to Facilitate Risk Communication in Primary Care	07/03 - 06/07	\$76,611
...		The major goal of this project is to develop and evaluate a simple, practical risk communication tool to support shared decision making in primary care.		
Schwartz, Lisa	VA	Association of Health Care Journalists Meeting	10/04 - 12/04	\$15,000
...		The major goal of this project is to organize, coordinate and host the regional meeting of the Association of Health Care Journalists for a program titled "Reliable Reporting: Making Sense of Medical Evidence."		
Schwartz, Lisa	NIH/NCI	Improving the Quality of News Reporting on Medicine	07/04 - 06/07	\$273,178
...		The major goal of this project is to develop methods to evaluate media coverage of medical issues and to promote balanced health messages in the media in order to help patients (and their physicians) better understand the importance of research findings and to promote informed decision making.		
Skinner, Jonathan	NIA	Causes and Consequences of Health Care Intensity	09/01 - 08/06	\$1,278,854
...		The major goal of this project is to improve understanding of the causes and consequences of regional variations in health care intensity, which could have important implications for the health and well-being of the elderly, for addressing health disparities and for the financial health of the Medicare trust funds.		
Skinner, Jonathan	NBER	Medical Innovations and Hospital Ownership	07/04 - 06/05	\$25,000
...		The major goal of this project is to study a central issue in the evaluation of hospital ownership status: how technology diffusion and adoption differ across for-profit and not-for-profit hospitals.		
Tosteson, Anna	NIH/NIA	Evaluation of Osteoporosis Prevention in the Elderly	01/95 - 08/07	\$315,623
...		To assess the potential impact of universal and selective interventions to prevent osteoporosis on life expectancy, quality-adjusted life expectancy and cost among populations of elderly women		
Tosteson, Anna	NIH/NIA	Evaluation of Digital Mammography Screening	03/01 - 12/04	\$93,420
...		The goal of the project is to assess the cost-effectiveness of digital mammography relative to screen-film mammography. This is a secondary aim of the main study, which is to assess the screening performance of digital mammography relative to screen-film mammography.		

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
Program Description:				
Tosteson, Anna	Eli Lilly & Co.	Lilly Raloxifene Projects	08/93 - 09/05	\$87,389
...		To conduct various studies to determine the cost effectiveness of Raloxifene in comparison with hormonal therapies and interventions; and to obtain necessary utility data for economic evaluation of Raloxifene		
Weeks, William	VA	Development of the Business Case for Patient Safety	05/03 - 04/05	\$72,932
...		To develop a business case for patient safety in order to measure and articulate potential financial benefits from investment in patient safety activities.		
Weeks, William	VA	Patient Safety Conference	10/03 - 11/04	\$416,244
...		To coordinate a series of conferences to provide education in patient safety and quality improvement techniques designed to enhance patient safety.		
Weeks, William	VA	Culture of Patient Safety Evaluation	10/03 - 12/04	\$703,248
...		To comprehensively evaluate the learning of healthcare administrators, executives and providers who attend the patient safety conferences and to identify associations between participation in the patient safety curriculum and changes in the culture of safety at the local environment.		
Weeks, William	VA	Rural Ethics Project	10/03 - 09/05	\$165,060
...		To conduct an analysis of the ethics of rural health care delivery in the United States, to communicate the relevance of those findings to the VHA and to write a grant to establish a rural ethics network within the VHA.		
Weinstein, James	NIH/NIAMS	NIAMS MCRC in Musculoskeletal Diseases	04/03 - 03/08	\$846,769
...		The major goal of this center is to promote rigorous clinical research through a focused collaboration of diverse disciplines with an overall objective of improving the health of patients suffering from musculoskeletal diseases.		
Wennberg, John	RWJ	Dartmouth Atlas Project	08/99 - 07/07	\$300,000
...		To promote a population-based perspective in health care reform through small area methods and dissemination of information through health care reform reports		
Wennberg, John	Aetna Inc.	Dartmouth Atlas Project	08/04 - 07/05	\$229,358
...		The major goal of this project is to provide to researchers and health policymakers unbiased feedback of population-based and provider-specific information describing resource inputs, utilization, outcomes of care, and performance measures among hospitals, hospital service areas and hospital referral regions across the United States.		
Wennberg, John	United Health	Dartmouth Atlas Project	08/04 - 07/07	\$229,358
...		The major goal of this project is to provide to researchers and health policymakers unbiased feedback of population-based and provider-specific information describing resource inputs, utilization, outcomes of care, and performance measures among hospitals, hospital service areas and hospital referral regions across the United States.		

Dartmouth Medical School, Dept. of Comm. & Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
		Program Description:		
Wennberg, John		Dartmouth Atlas Project		
	WellPoint Fndn		08/04 - 07/07	\$91,743
...		The major goal of this project is to provide to researchers and health policymakers unbiased feedback of population-based and provider-specific information describing resource inputs, utilization, outcomes of care, and performance measures among hospitals, hospital service areas and hospital referral regions across the United States.		
Woloshin, Steve		Helping Patients and Physicians Make Sense of Medical Data		
	RWJF		07/04 - 06/06	\$54,756
...		The major goal of this project is to promote the effective communication of medical information to and between patients and physicians.		
Woloshin/Schwartz		Understanding Numbers in Health		
	NIH/NCI		09/00 - 12/04	\$137,422
...		To develop and evaluate a general education booklet and related communication tools to help people think about and make use of numbers in health.		
...		To document the outcomes of primary and revision total hip arthroplasty		
Woloshin/Schwartz		"Drug Facts" Box Interviews		
	VA		09/04 - 09/05	\$15,000
...		The major goal of this project is to conduct 200 face-to-face interviews of a clustered random sample of potential drug consumers in different geographic areas to evaluate the use of a "Drug Facts" box under consideration for inclusion in Direct-to-Consumer pharmaceutical advertising.		
Zubkoff, Michael		Shared Decision Making Leadership Award		
	FIMDM		07/04 - 06/06	\$170,940
...		The major goal of this project is to further integrate shared decision making into clinical practice at Dartmouth, with a special focus on primary care.		
<b>Subtotal for CECS:</b>			<b>\$8,389,519</b>	

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
		Program Description:		
<b>BioEpi and Spine</b>		(joint with NCCC, Medicine, and Orthopedics)		
Andrew, Angeline	ASPO	Arsenic Exposure	07/02 - 07/05	\$4,615
...		The primary aim of this fellowship is to investigate the effects of ingestion of arsenic on DNA repair gene expression in relation to bladder cancer risk.		
Andrew, Angeline	NIH/NCI	DNA Repair and Bladder Cancer	07/03 - 06/05	\$83,668
...		The objective of this project is to investigate polymorphisms in DNA repair genes that may increase susceptibility to bladder cancer		
Baron, John	NIH/NIAMS	NIAMS Multidisciplinary Clinical Research Center	04/01 - 03/05	\$40,469
...		To document the outcomes of primary and revision total hip arthroplasty		
Baron, John	NCI	Colorectal Chemoprevention with Calcium and Vitamin D	09/03 - 08/08	\$2,746,662
...		To assess the use of calcium and vitamin D in colorectal chemoprevention		
Baron, John	Michigan (NIH)	Great Lakes-New England Clinical and Epidemiology Center	03/01 - 02/05	\$62,536
...		The 'Brenner' Early Detection Research Network (EDRN) project is a research study investigating possible biomarkers related to colon cancer detection, with a focus upon the ability of a biomarker to predict future clinical events.		
Baron, John	USC/NIH	Colorectal Cancer Family Registry	08/01 - 06/07	\$328,067
...		To establish a registry of families who have a history of multiple cases of colorectal cancer		
Baron, John	Harvard/NIH	Determinants of the Outcome of Primary and Revision Total Replacement in a Population-Based Cohort	07/00 - 06/05	\$23,969
...		To study the determinants of outcome of primary and total hip replacement in a population-based cohort		
Baron, John	Harvard/NIH	Folate, 1-Carbon Nutrients, Gene Variants & Colon Cancer	09/03 - 08/08	\$136,850
...		To study the effects of folate, 1-carbon nutrients and gene variants in colon cancer		
Baron, John	NIH/NCI	Aspirin Prevention of Large Bowel Polyps	12/98 - 11/04	\$1,332,224
...		To assess the impact of aspirin on the occurrence of large bowel polyps in a multi-site clinical trial		
Baron, John	NIH/NCI	Calcium in the Prevention of Neoplastic Polyps	01/99 - 12/04	\$38,441
...		To continue the investigation related to a successful chemoprevention trial of calcium as a preventive agent against the recurrence of colorectal adenomas		

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
Baron, John	NIH/NCI	Folate, DNA Methylation, and Carcinogens in the Bowel	12/98 - 11/04	\$67,770
...		The purpose of this grant is to add measures of DNA methylation in the normal mucosa of subjects participating in a chemoprevention trial of folate as a preventive agent against recurrence of large bowel adenomas		
Baron, John	MD Anderson	DNA Methylation	07/04 - 04/08	\$43,781
...		This study is an investigation of DNA methylation (in normal mucosa and in adenomas) in the aspirin/folate trial. The effect of aspirin and folate on these endpoints will be assessed, as well as the associations with lifestyle factors		
Baron, John	U of AZ	Colorectal Neoplasia	08/04 - 07/07	\$39,130
...		This study will be a pooled analysis of large polyp surveillance and prevention trials with a focus on risk factors for advanced adenomas and cancer		
Baron, John	AECM	Colorectal Adenomas	07/04 - 06/07	\$27,113
...		This study will investigate the association of serum cytokines (CRP, IL-6, TNF alpha) with adenoma endpoints in the aspirin/folate trial. The association of lifestyle factors with the cytokines will also be assessed, as well an exploration of whether the aspirin effects parallel any effect on cytokines		
Cole, Bernard	ICSG	International Breast Cancer Statistical Consult	10/04 - 09/05	\$39,055
...		Participation as a collaborating biostatistician for the International Breast Cancer Study Group and provide statistical expertise and input to the investigators and staff, including development of protocols, study design plans and data analysis plans		
Duell, Eric	NCI	DNA Repair Gene Polymorphisms and Pancreatic Cancer	09/03 - 08/06	\$231,062
...		This project will analyze genomic DNA from pancreatic cancer cases and population-based controls in order to describe the association between inherited genetic variation in key genes involved in oxidative stress, DNA repair, and cell cycle repairs, and the risk of pancreatic cancer		
Finlayson, Sam	NIH/NIDDK	Medical and Surgical Treatment of Esophageal Reflux	04/02 - 05/05	\$97,630
...		To compare proton pump inhibitor therapy and laparoscopic anti-reflux surgery for GERD (Gastroesophageal reflux disease).		
Karagas, Margaret	Harvard (NIH)	Molecular Epidemiology of Non-Melanoma Skin Cancer	09/99 - 06/07	\$128,952
...		The primary objective is to increase the understanding of host susceptibility to non-melanoma skin cancer and advance current models of skin carcinogenesis through identification of patterns of gene inactivation		
Karagas, Margaret	NCI	Radiation Technology NCI Pilot	08/03 - 08/05	\$47,188
...		Radiation technologists pilot study of skin cancers		
Karagas, Margaret	NCI/NIH	Epidemiology of Non-Melanoma Skin Cancer in NH	12/97 - 05/06	\$793,383
...		The primary objectives of the study are to evaluate incidence trends of skin cancer in a geographically defined U.S. population and to investigate etiologic factors for these malignancies		

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
Program Description:				
Karagas, Margaret Harvard (NIH)		Superfund Hazardous Substances Basic Research Program	04/00 - 03/05	\$89,468
...		To understand, assess and attenuate the adverse effects on human health resulting from environmental exposures to toxic metals		
Karagas, Margaret NIEHS		Toxic Metals in the Northeast	04/00 - 03/05	\$264,439
...		To understand, assess and attenuate the adverse effects on human health resulting from environmental exposures to toxic metals		
Karagas, Margaret Westat (NIH/NCI)		Bladder Registry	09/01 - 04/05	\$114,232
...		The goal of this project is to determine the factors that contribute to the high mortality and incidence rates of bladder cancer in northern New England.		
Karagas, Margaret Westat (NIH/NCI)		The New England Bladder Cancer Study	10/00 - 09/05	\$270,889
...		This is a population-based case-control study covering three New England States, Maine, New Hampshire and Vermont. The major purpose is to explain the apparent excess in bladder cancer rates in the region.		
Rees, Judy NH		NH State Cancer Registry	07/01 - 06/05	\$363,756
...		To provide a comprehensive cancer registry and rapid reporting system		
Rigas, James Genentech/Aventis		Web-based Randomized Phase III Study of Erlotinib HCL	11/04 - 10/07	\$1,318,545
...		To evaluate combinations of Taxotere/gemcitabine and Taxotere/carboplatin are equivalent in overall survival in patient with advanced lung cancer		
Rigas, James Adventis		Multi-Center Lung Cancer Taxotere Study	09/01 - 01/05	\$2,497,050
...		To evaluate combinations of Taxotere/gemcitabine and Taxotere/carboplatin are equivalent in overall survival in patient with advanced lung cancer		
Titus-Ernstoff, Linda NCI		Continuation of Follow-up of DES-Exposed Cohorts	08/91 - 09/05	\$112,270
...		Continuation of follow-up of DES-Exposed Cohorts		
Titus-Ernstoff, Linda NCI		Atypical Nevi in Melanoma: A Case Control Study	04/04 - 03/07	\$225,000
...		Following a cohort of melanoma cases to identify risk factors for additional primary melanoma tumors		
Titus-Ernstoff, Linda Br&Women Hosp		Genes, hormones, and environment in an ovarian cancer model	08/03 - 07/08	\$86,268
...		The main goal of this population-based study is to examine genetic and environmental risk factors for ovarian cancer		
Tosteson, Tor NIH/NCI		Measurement Errors in Cancer Respiratory Epidemiology	02/03 - 01/05	\$16,682
...		To continue to develop statistical methods useful in cancer respiratory research and to implement methods in the form of distributable computer software		

Dartmouth Medical School, Dept. of Comm. & Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
Program Description:				
Weinstein, James	NIH	Low Back Pain: A Multicenter Randomized Trial (joint with CECS)	06/99 - 11/04	\$2,889,149
...		The major goal of this project is to conduct a multicentered, randomized, controlled trial for the three most common diagnostic groups for which spine surgery is performed: lumbar intervertebral disc herniation, spinal stenosis and spinal stenosis secondary to degenerative spondylolithesis, comparing the most commonly used standard surgical and non-operative treatments		
<b>Subtotal for Bio/Epi and Spine:</b>			<b>\$14,560,313</b>	
<b>Primary Care Research</b>				
Carney, Patricia	UWash	Understanding Variability in Community Mammography	08/04 - 05/05	\$96,934
...		To design and test an intervention to improve cancer radiologists' interpretation of mammography		
Carney, Patricia	NCI	Hormone Replacement Therapy and Breast Cancer	04/00 - 03/05	\$361,485
...		To identify reasons for variability in the interpretation of mammograms and specifically study how recall rates and accuracy are influenced by fiscal, legal, environment and personal characteristics of radiologists		
Carney, Patricia	NCI	Strategic Studies in Breast Cancer Surveillance	05/00 - 03/05	\$263,949
...		To enhance the New Hampshire Mammography Network's research capacity by by expanding data collection to include determining outcomes in women who experienced mammography abnormalities and whose subsequent breast outcomes are not recorded in our registry		
Cravero, Joseph	HRSA	EMSC Partnership Grant	03/03 - 02/06	\$86,941
...		Continuing progress in institutionalizing EMSC activities within the State Trauma System		
Dietrich, Allen	MacArthur Fdn.	Recognition and Management of Depression in Primary Care	01/00 - 12/04	\$1,000,000
...		To continue research on the recognition and treatment of depression in primary care settings		
Dietrich, Allen	MacArthur Fdn.	Dissemination Initiative on Depression and Primary Care	01/03 - 12/04	\$750,000
...		To disseminate information learned on treatment of depression in primary care settings to a large number of practices nationally		
Dietrich, Allen	NCI	NY Prevention Care Manager Project	09/00 - 08/05	\$499,078
...		To test the impact and measure the costs of a prevention case manager to improve cancer early detection provided to ethnically diverse women ages 50-69 seen in community health centers in NYC		
Dietrich, Allen	NCI	Develop a Primary Care Colon Cancer Screening Consortium	04/04 - 03/06	\$112,500
...		To develop the infrastructure and procedures necessary for a population based colonoscopy registry in NH and to enroll patients receiving colonoscopy thru DHMC and its 12 primary care practices		

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
Program Description:				
Harper, Diane	Medispectra	Time-Resolved Spectral Imaging of Cervical Cancer Acetowhitening	09/02 - 01/05	\$177,141
...		To determine optimal criteria for automated discrimination between different tissue types in cervical cancer		
Kollisch, Donald	State of NH	Rural Scholars Program	07/04 - 06/05	\$55,556
...		Prepare medical students to provide medical care in rural and underserved areas of the State		
Kollisch, Donald	AIHA	Reproductive Health Partnership in Kosovo	02/04 - 01/06	\$162,037
...		This project's aim is to increase the capacity and competency of family physicians and nurses to provide quality reproductive health services in Family Medicine Centers		
McCullough, Dennis	UV Comm. Fdn.	Senior Fitness Project	05/00 - 04/05	\$76,928
...		To maintain and improve the model for structured, peer-supported physical reconditioning in the Elderly		
McCullough, Dennis	UV Comm. Fdn.	Upper Valley Community Geriatrics Project	09/03 - 06/05	\$130,000
...		Develop "Continuing Care Retirement Services without Walls" program, which would include both social and medical services provided outside of nursing homes to support those living at home		
Olson, Ardis	Comm. Fund	Addressing Maternal Depression: A Screening Project	10/03 - 06/05	\$248,428
...		To develop and implement of program of maternal depression screening in pediatric practices with follow-up support		
Orgren, Rosemary	USDA	Distance Learning and Telemedicine	11/00 - 11/04	\$236,898
...		To provide greater access to educational programs in rural areas of the State New Hampshire in a shared network of hardware, software and electronic connections		
Orgren, Rosemary Jones, Russell	EFH	Medical Provider Oral Health Education Project	07/02 - 06/05	\$60,722
...		Initiative to address poor oral health in New Hampshire's low-income children		
Orgren, Rosemary	U Mass	Health Information Providers of New Hampshire Project	04/04 - 03/05	\$33,323
...		To provide tools, training and ongoing technical assistance to providers of health care and information service providers to help them stay current in their field of medicine		
Thomas, Vince	RWJF	Improving Treatment for Medicaid Beneficiaries with Co-occurring Disorders	11/04 - 02/07	\$30,634
...		To study the relationship of substance abuse and prescription drug use in the elderly using Medicaid claims data		

## Dartmouth Medical School, Dept. of Comm. &amp; Family Medicine Sponsored Activities

PI	Sponsor	Title	Start - End	Direct Cost FY05
Program Description:				
Wasson, John	Comm. Fund	Disseminating a Community-Based Strategy to Improve Health Care	12/03 - 06/05	\$74,457
...		To disseminate web-based information on improving community health care		
Wasson, John	RWJF	Office Practice Changes to Improve Healthy Behaviors	07/03 - 06/05	\$119,651
...		To estimate the cost-effectiveness of replicable approaches for improvement of healthy behaviors in persons between 16-49 years of age		
Wasson, John	Eli Lilly & Co.	Clinical Assessment System for Employers in S. California	11/98 - 04/05	\$7,734
